

Scrum Call Meeting Notes

April 16, 2024

Group Updates:

- Will is having issues with the messaging system and will attend office hours to seek out a resolution
- Allie was having issues with implementing a message that says the user's username when they login on to the home page and will also attend office hours to find a solution
- Brandon asked about how to use handlebars to display information for the todo display, Bhoomika said to look at Lab 7 for instructions on how to accomplish this

Individual Updates:

- Brandon worked on the sorting system
- Evy worked on the todo tab and CSS
- Tommy worked on making the create todo form upload correctly to the DB
- Allie worked on stylizing the home page
- Jamie worked on resolving backend issues
- Will worked on a submit button to test the email system

Evy presented the website and we talked about the sorting system and how it will function
